**The Game**

1. Play, have fun and be safe. If the equipment is not misused the game is safe as you are protected by the bubble. Obviously zorb wars/football is a contact sport so there are normal risks of playing any sport but we will give a safety briefing before the game and give some rules that must be followed. During the game, as long as you listen to our staff members whistle and instructions you and your friends will have a great experience that will never be forgotten.
2. Equipment to wear during the game.  
All players should wear appropriate sports clothing and sports shoes (football boots are not allowed) to minimise risk of injury. All personal belongings such as watches, rings, earrings, necklaces etc should not be worn. Corrective glasses are not allowed to be worn in case of damage while inside the bubble therefore contact lenses are recommended for those in need.  
Knee pads and shin pads may be preferred by players because if you fall, you will be using your knees solely to balance and stand up while your hands are in the bubble and when challenging for the ball. The risk of being kicked is still there as after all this is zorb wars/football.
